

SERBIA GREEN BUILDING EXPO

SAJAM I KONFERENCIJA — EXHIBITION AND CONFERENCE

BEOGRAD

23-25 FEBRUARY 2012

Devin Sejlor • Devin Saylor

Regional Director of the Sustainable Advisory Services team, Colliers Int. Southeast Europe

Economic and Financial Benefits of Green Buildings

Dan 1 • Day 1 / 23. februar • February 23rd
Belexpocentar, Novi Beograd

U predavanju *Ekonomске i finansijske dobiti zelenih zgrada*, Devin Sejlor, LEED AP, odgovoriće da li su svi ti benefiti zajedno vredni investicije sertifikovanja zgrade.

Na osnovu iskustava sa projekata u Jugoistočnoj Evropi, na ovom predavanju saznaćete koliki su zapravo troškovi sertifikacije zgrade koji ulaze u proračun cene investicije.

O Devin Sejlor

Devin Sejlor je regionalni direktor savetodavnog tima za održivost u kompaniji Colliers International za Jugoistočnu Evropu, sa preko 15 godina iskustva u investicijama i finansiranjima na tržištu nekretnina.

Prva iskustva sa LEED standardom stiće u Nju Džerziju gde učestvuje u realizaciji projekta mešovite funkcije u gustom urbanom jezgru koji je bio izabran da bude jedan od 250 projekata koji su učestvovali u LEED ND protokolu namenjenom za šire urbanističke projekte.

Sejlor je bila aktivan član ogranka USGBC-a u Los Anđelesu, a karijeru na tržištu nekretnina započela je sa Arturom Andersenom kada je pomogla da se uspostavi kancelarija Real Estate Service Group-a u Hong Kongu.

LEED – Leader in Energy and Environmental Design

USGBC – U.S. Green Building Council

LEED ND – LEED Neighborhood Development

LEED AP – LEED Accredited Professional

There are many financial and economic benefits associated with green building certification we hear about. However, is it all together worth the cost?

Based on the experience on the projects throughout South East Europe, find out what it costs to achieve green building certification.

About Devin Saylor

Devin Saylor, LEED AP, is the regional director of the Sustainable Advisory Services team in Colliers International Southeast Europe. She has more than 15 years of real estate development and finance.

Her experience with LEED began in New Jersey where she was involved in the development of a high density mixed use project that was selected as one of 250 projects to participate in the LEED Neighborhood Development (ND) rating system.

Subsequently, she launched a sustainable consulting practice to help project achieve green building certification. She has been actively involved in the U.S Green Building Council Chapters in Los Angeles, New York City and Northern California. Ms. Saylor began her career in real estate with Arthur Andersen where she helped start the Real Estate Services Group in Hong Kong. She holds a Masters degree from the University of Southern California in Real Estate Development and Urban Planning.
