

Dominika Červinska • Dominika Czerwinska

WorldGBC: Growing a Global Green Building Movement

Dan 1 • Day 1 / 23. februar • February 23rd
Belexpocentar, Novi Beograd

Svetski savet zelene gradnje najveća je međunarodna organizacija zelene gradnje koja okuplja nacionalne savete zelene gradnje iz preko 80 zemalja sveta.

U nameri da bolje odgovori lokalnim problemima i uspostavi bližu saradnju zemalja u pojedinim regionima sveta, pod okriljem Svetskog saveta uspostavljen je su regionalne mreže saveta zelene gradnje.

O detaljima rasta i razvoja Svetskog saveta govoriće Dominika Červinska u predavanju: Svetski savet – stvaranje globalnog pokreta zelene gradnje. Pored pregleda aktivnosti Svetskog saveta poslednjih godina, Dominika će u Beogradu predstaviti i neke od uspešnih priča iz celog sveta u okviru ove mreže.

Dominika Červinska

Dominika je već tri i po godine u Svetskom savetu zelene gradnje gde danas radi kao Menadžer za članstvo i Regionalnu mrežu Evrope - ogranka Svetskog saveta.

Diplomirala je na univerzitetu York u Torontu, Kanada, u oblasti nauke i tehnike, a zvanje Master stekla je na studijama zaštite životne sredine na katedri za urbano planiranje koja je fokusirana na održivi razvoj i zelenu gradnju.

Blisko je saradivala sa Institutom za istraživanje i inovaciju u oblasti održivosti – IRIS (Institute for Research and Innovation in Sustainability) pri univerzitetu York gde je sprovodila istraživanja o uticaju fragmentacije prirodnih staništa na ptice selice i rehabilitaciju ekosistema urbanih parkova.

Presentation about World Green Building Council named *Growing a global green building movement* - introduces WorldGBC and its activities.

WorldGBC is the largest international green building organization, organized in five Regional Networks. Dominika will speak about its growth over recent years and then share some success cases from around the world.

About Dominika Czerwinska

Dominika Czerwinska is the Manager of Membership and Europe Network at the World Green Building Council where she has worked for the past three and a half years.

She holds an Honours Bachelor of Science and Engineering degree and a Master of Environmental Studies degree under the Urban Planning Stream focusing on sustainable development and green construction from York University, Toronto Canada.

In the past she has worked closely with York University's Institute for Research and Innovation in Sustainability (IRIS) and has done research in the field studying the effects of habitat fragmentation on migratory birds and ecosystem rehabilitation of urban parks.
