

SERBIA GREEN BUILDING EXPO | BEOGRAD

SAJAM I KONFERENCIJA — EXHIBITION AND CONFERENCE

23-25 FEBRUARY 2012

Dženivin Kvan • Jennivine Kwan

Vice President, International Operations at USGBC

LEED International Program: New Developments for 2012.

Dan 1 • Day 1 / 23. februar • February 23rd
Belexpocentar, Novi Beograd

Dženevin Kvan će u Beogradu direktnim video-linkom govoriti o daljem razvoju najrasprostranjenijeg međunarodnog protokola za sertifikaciju zelenih zgrada – LEED, Saveta zelene gradnje SAD (USGBC).

U prezentaciji će više reči biti o poslednjim izmenama u protokolu koje stupaju na snagu 2012. godine, u cilju veće fleksibilnosti i transparentnosti sistema prema potrebama korisnika širom sveta.

Trenutno u svetu preko 36.000 poslovnih zgrada u fazi projektovanja, izgradnje ili upotrebe, koristi LEED protokol. Ovo čini ukupno preko 700 miliona metara kvadratnih korisne površine poslovnih zgrada u preko 100 zemalja sveta.

O Dženivin Kvan

Dženivin Kvan, potpredsednik za međunarodne poslove Saveta zelene gradnje SAD (USGBC), zadužena je za razvoj, koordinaciju i implementaciju LEED programa za sertifikaciju zelenih zgrada.

Dženivin Kvan je LEED AP i diplomirani je inženjer za održivo projektovanje i izgradnju sa Univerziteta Desarolo u Santjagu, Čile. Tečno govori pet jezika.

Presentation will be focused on providing audience members who have a general understanding with LEED the latest updates and improvements being made to make LEED more flexible for users and easier to use all around the world.

Over 36,000 commercial projects are currently using LEED for the design, construction and operations of green buildings, comprising over 700 million square meters of construction space throughout the United States and in over 100 countries around the world.

About Jennivine Kwan

Jennivine Kwan, Vice President, International Operations at the U.S. Green Building Council (USGBC), is responsible for the development, coordination and implementation of USGBC's unified engagement efforts with global green building leaders that share our vision and mission around the world.

Previous to joining USGBC, Jennivine was responsible for assisting Johnson Controls, a Fortune 100 company focused on integrated energy-efficient solutions for buildings, to develop its green building and energy solutions business in Latin America, focusing primarily on Chile and Argentina.

A Canadian national, she has spent over a decade living and working in Asia and Latin America and brings with her extensive experience in organizational management, strategic communications and business strategy and execution for emerging markets.

Jennivine is a LEED AP and has a master's degree in sustainable design and construction from the Universidad del Desarrollo, a leading private university in Santiago, Chile. She speaks fluent Mandarin, Cantonese and Spanish and conversational French.
