Technical Consultant, Sika

## Sika rešenja za održive krovne sisteme

Dan 1 • Day 1 / 23. februar • February 23<sup>rd</sup>  
Belexpocentar, Novi Beograd

**Prezentacija kompanije Sika, člana SrGBC-a, na Konferenciji zelene gradnje obuhvatiće informacije o krovnim sistemima i problematici koja se tiče LEED standarda i zahteva.**

Dodatno, biće reči i o pitanjima kao što su: koliko su krovovi bitni u pogledu energetske efikasnosti, i kako sa proizvodima kompanije Sika dobiti LEED poene i u kojim je sve oblastima standarda to moguće.

### O Nenadu Stamenkoviću

Nenad je diplomirani mašinski inženjer zaposlen u kompaniji Sika, članu Saveta zelene gradnje, od 2006. godine. Trenutno je angažovan na mestu tehničkog konsultanta kompanije.

Nenad je stručnjak za krovne i hidroizolacione sisteme, i lider je srpskog tima kompanije za održivost - Sika Serbia Sustainability.

**SrGBC** – Serbia Green Building Council  
/ Savet zelene gradnje Srbije

**LEED** – Leader in Energy and Environmental Design
